MSDS Version 2.1

Routes of Exposure	Inhalation and ingestion.
Immediate Effects	
Eye	Avoid contact with eyes.
Skin	May cause mild irritation to the skin. Harmful if absorbed through the skin. Avoid contact with skin or clothing.
Ingestion	Harmful if swallowed.
Inhalation	May be harmful if inhaled. Avoid breathing spray mist.
Chronic or Delayed Long-Term	See Section 11 for carcinogenic/oncogenic information on piperonyl butoxide.
Signs and Symptoms	May cause gastrointestinal effects such as nausea, vomiting and diarrhea. Ingestion of large quantities can result in nervous system effects such as dizziness, loss of coordination, tremors and loss of consciousness. Symptoms usually regress with no long lasting effects.

SECTION 4. FIRST AID MEASURES

Eye	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Skin	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
Ingestion	Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
Inhalation	Remove victim to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
Note to Physician	Have the product container or label with you when calling a poison control center or doctor or going for treatment. This product contains a pyrethroid. If a small amount is ingested (or if treatment is delayed) oral administration of large amounts of activated charcoal and a cathartic is probably sufficient therapy. Do not administer milk, cream or other substances containing vegetable or animal fats, which enhance the absorption of lipophilic substances.

Lower Flammable Limit	0.6 %(V)
Upper Flammable Limit	7 %(V)
Suitable Extinguishing Media	carbon dioxide (CO2), dry chemical, foam, water
Fire Fighting Instructions	As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH approved (or equivalent) and full protective gear. Do not use direct stream of water. Material may float and reignite.

SECTION 6. ACCIDENTAL RELEASE MEASURES

General and Disposal	Soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with chemical waste.
-----------------------------	---

SECTION 7. HANDLING AND STORAGE

Handling Procedures	Do not breathe spray mist. Remove pets, birds and cover fish aquaria before spraying. Do not apply as a space spray while food processing is underway. Foods should be removed or covered before treatments. When using in animal quarters, do not apply directly to food, water or food supplements.
Storing Procedures	Do not contaminate water, food, or feed by storage or disposal. Store upright at room temperature. Avoid exposure to extreme temperatures.
Work/Hygienic Procedures	Wash exposed skin surfaces with soap and water after handling and before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse. Wash teats of dairy animals before milking. Food processing surfaces and equipment must be covered during treatment or cleaned with a suitable detergent and rinsed with potable water before reuse.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute Oral Toxicity LD50: > 3,000 mg/kg

Acute Dermal Toxicity LD50: > 3,000 mg/kg

Acute Inhalation Toxicity LC50: > 4.93 mg/l 4 h

LC50: > 19.72 mg/l 1 h
for DOT purposes

Skin Irritation Mildly irritating.

Eye Irritation Non-irritating.

Sensitization Not a skin sensitizer.

The above Acute Toxicity data based on Turbocide Gold with Pyrenone, EPA Reg. No. 432-1186, containing 4.03% Pyrethrins and 32.26% Piperonyl Butoxide.

Chronic Toxicity In a recent study, marginally higher incidences of benign thyroid, parathyroid, ovary, and liver tumors were observed in rats and in lungs of mice following lifetime high doses exposures to pyrethrum.

Marginally higher incidences of benign liver tumors in mice were observed in mice following lifetime high dose exposures to piperonyl butoxide.

The significance of these observations is questionable and under review. The doses at which tumors were observed for both pyrethrum and piperonyl butoxide greatly exceeded potential human exposure from labeled uses.

Do not contaminate water by cleaning of equipment or disposal of equipment wastewaters. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources.

SECTION 13. DISPOSAL CONSIDERATIONS

General Disposal Guidance

Pesticide, spray mixture or rinse water that cannot be used according to label instructions may be disposed of at an approved waste disposal facility.

Container Disposal

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
