The theme for the 10th Fumigants & Pheromones Conference is “Pest Management Around the World.” This conference will feature new and practical applications of pest management with a hands-on workshop with field demonstrations. Each speaker has been carefully selected to offer an international perspective on how we protect our food, grain, structures, wood, and fiber from pests. The keynote speaker is Dr. Gebisa Ejeta, World Food Prize Laureate, from Purdue University. It is an honor to have Dr. Ejeta explain how his research has reduced hunger in marginal growing regions in the world. Speakers from Africa, Europe, and North America will tell how they perform their jobs under varied conditions and regulations.

Throughout the past twenty years, this conference has followed the guiding principal of “Sharing through Education.” The 2012 version will be no different. Since our first conference in Lübeck, Germany in 1993, we have had over 2400 attendees from 60 countries attend this stored product protection conference. In Valencia in 2010 pest management on agricultural crops was recognized for their financial support. The conference website. All sponsors will be recognized for their financial support. The conference depends on the help we receive from our sponsors. If you would be interested in being a sponsor, you can contact the organizers or visit the conference website. All sponsors will be recognized for their financial support.

Conference Location:
A poster display on pest management will be available to commercial groups and university scientists wanting to explain their products and research. This is an excellent opportunity to learn directly from the poster authors in a relaxed setting. New products are often launched at this conference. Contact the organizers or visit www.insectslimited.com for more information.

Dr. Gebisa Ejeta, 2009 World Food Prize Laureate

The month of May is special in Indianapolis. The Indianapolis 500 automobile race attracts people from all corners of the world. This conference was purposely positioned to allow the attendees to spend time at the Famous Indianapolis Speedway to observe the magic of open wheeled racing at over 300 MPH (480 KPH) on a 2.5 mile oval track. Bat pits that change four tires and fill the tanks in less than 7 seconds, of 300 thousand fans gathered to celebrate spring time in Indiana. The Indy is the Greatest Spectacle in Racing. A special conference Gala dinner will be held in the middle of the Indianapolis Raceway at the Indianapolis 500 Museum. Here you will relive the one hundred years of history of the Indy 500.
