1. Product and Company Identification

Company
BASF CORPORATION
100 Park Avenue
Florham Park, NJ 07932, USA

24 Hour Emergency Response Information
CHEMTREC: 1-800-424-9300
BASF HOTLINE: 1-800-832-HELP (4357)

Registrant:
Whitmire Micro-Gen Research Laboratories, Inc.
3568 Tree Court Industrial Blvd.
St. Louis, MO 63122

Substance number: 000000572578
Synonyms: Pyrethrins + Piperonyl Butoxide

2. Hazards Identification

Emergency overview
CAUTION:
KEEP OUT OF REACH OF CHILDREN.
Moderately irritating to the eyes.
Do not get in eyes, on skin, or on clothing.
Wash thoroughly after handling.

See Product Label for additional precautionary statements.

State of matter: liquid
Colour: yellow
Odour: slight odour, solvent-like

Potential health effects
Primary routes of exposure:
Routes of entry for solids and liquids include eye and skin contact, ingestion and inhalation. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquified gases.

Acute toxicity:
Relatively nontoxic after single ingestion. Slightly toxic after short-term skin contact. Relatively nontoxic after short-term inhalation.

Irritation / corrosion:
May cause moderate but temporary irritation to the eyes. May cause moderate irritation to the skin.

Sensitization:
Skin sensitizing effects were not observed in animal studies.

**Signs and symptoms of overexposure:**
Vomiting may cause aspiration pneumonia due to the ingredients.

### 3. Composition / Information on Ingredients

### 4. First-Aid Measures

**General advice:**
First aid providers should wear personal protective equipment to prevent exposure. Remove contaminated clothing. Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or physician for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

- **If inhaled:**
  Remove the affected individual into fresh air and keep the person calm.

- **If on skin:**
  Rinse skin immediately with plenty of water for 15 - 20 minutes.

- **If in eyes:**
  Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing.

- **If swallowed:**
  Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions. Do not induce vomiting. Have person sip a glass of water if able to swallow.

**Note to physician**

**Treatment:**
Aspiration of this product during induced emesis can result in lung injury. If evacuation of stomach contents is considered necessary, use method least likely to cause aspiration, such as gastric lavage after endotracheal intubation.

### 5. Fire-Fighting Measures

- **Flash point:** > 85 °C (ASTM D56)
- **Lower explosion limit:** not determined
- **Upper explosion limit:** not determined
- **Flammability:** not highly flammable
- **Self-ignition temperature:** not self-igniting

**Suitable extinguishing media:**
foam, dry powder, water spray

**Hazards during fire-fighting:**
carbon monoxide, carbon dioxide, nitrogen dioxide, nitrogen oxide,
If product is heated above decomposition temperature, toxic vapours will be released. The substances/groups of substances mentioned can be released in case of fire.
Protective equipment for fire-fighting:
Firefighters should be equipped with self-contained breathing apparatus and turn-out gear.

Further information:
Evacuate area of all unnecessary personnel. Contain contaminated water/firefighting water. Do not allow to enter drains or waterways.

6. Accidental release measures

Personal precautions:
Take appropriate protective measures. Clear area. Shut off source of leak only under safe conditions. Extinguish sources of ignition nearby and downwind. Ensure adequate ventilation. Wear suitable personal protective clothing and equipment.

Environmental precautions:
Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater. Contain contaminated water/firefighting water. A spill of or in excess of the reportable quantity requires notification to state, local and national emergency authorities. This product is regulated by CERCLA ('Superfund').

Cleanup:
Dike spillage. Pick up with suitable absorbent material. Spilled substance/product should be recovered and applied according to label rates whenever possible. If application of spilled substance/product is not possible, then spills should be contained, solidified, and placed in suitable containers for disposal. After decontamination, spill area can be washed with water. Collect wash water for approved disposal.

7. Handling and Storage

Handling

General advice:
RECOMMENDATIONS ARE FOR MANUFACTURING, COMMERCIAL BLENDING, AND PACKAGING WORKERS. PESTICIDE APPLICATORS & WORKERS must refer to the Product Label and Directions for Use attached to the product. Provide good ventilation of working area (local exhaust ventilation if necessary). Keep away from sources of ignition - No smoking. Keep container tightly sealed. Protect against heat. Handle and open container with care. Do not open until ready to use. Once container is opened, content should be used as soon as possible. Provide means for controlling leaks and spills. Follow label warnings even after container is emptied. The substance/product may be handled only by appropriately trained personnel. Avoid all direct contact with the substance/product. Avoid contact with the skin, eyes and clothing. Avoid inhalation of dusts/mists/vapours. Wear suitable personal protective clothing and equipment.

Protection against fire and explosion:
The relevant fire protection measures should be noted. Fire extinguishers should be kept handy. Avoid all sources of ignition: heat, sparks, open flame. Avoid extreme heat. Ground all transfer equipment properly to prevent electrostatic discharge. Electrostatic discharge may cause ignition.

Storage

General advice:
Keep only in the original container in a cool, dry, well-ventilated place away from ignition sources, heat or flame. Protect containers from physical damage. Protect against contamination. The authority permits and storage regulations must be observed.

Storage incompatibility:
General advice: Segregate from incompatible substances. Segregate from foods and animal feeds. Segregate from textiles and similar materials.

Storage stability:
May be kept indefinitely if stored properly. If an expiry date is mentioned on the packaging/label this takes priority over the statements on storage duration in this safety data sheet.
8. Exposure Controls and Personal Protection

Users of a pesticidal product should refer to the product label for personal protective equipment requirements.

Components with occupational exposure limits

<table>
<thead>
<tr>
<th>Component</th>
<th>OSHA</th>
<th>ACGIH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pyrethrins</td>
<td>PEL</td>
<td>TWA</td>
</tr>
<tr>
<td>Distillates (petroleum), hydrotreated light</td>
<td></td>
<td>value</td>
</tr>
</tbody>
</table>

OSHA PEL 5 mg/m³; ACGIH TWA value 5 mg/m³; Application restricted to conditions in which there are negligible aerosol exposures. Skin Designation Non-aerosol (total hydrocarbon vapor); The substance can be absorbed through the skin.

Advice on system design:
Whenever possible, engineering controls should be used to minimize the need for personal protective equipment.

Personal protective equipment

RECOMMENDATIONS FOR MANUFACTURING, COMMERCIAL BLENDING, AND PACKAGING WORKERS:

Respiratory protection:
Wear respiratory protection if ventilation is inadequate. Wear a NIOSH-certified (or equivalent) organic vapour/particulate respirator. For situations where the airborne concentrations may exceed the level for which an air purifying respirator is effective, or where the levels are unknown or Immediately Dangerous to Life or Health (IDLH), use NIOSH-certified full facepiece pressure demand self-contained breathing apparatus (SCBA) or a full facepiece pressure demand supplied-air respirator (SAR) with escape provisions.

Hand protection:
Chemical resistant protective gloves, Protective glove selection must be based on the user's assessment of the workplace hazards.

Eye protection:
Safety glasses with side-shields. Tightly fitting safety goggles (chemical goggles). Wear face shield if splashing hazard exists.

Body protection:
Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical-protection suit.

General safety and hygiene measures:
RECOMMENDATIONS FOR MANUFACTURING, COMMERCIAL BLENDING, AND PACKAGING WORKERS
Wear long sleeved work shirt and long work pants in addition to other stated personal protective equipment. Work place should be equipped with a shower and an eye wash. Handle in accordance with good industrial hygiene and safety practice. Personal protective equipment should be decontaminated prior to each use. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks). Take off immediately all contaminated clothing. Store work clothing separately. Hands and/or face should be washed before breaks and at the end of the shift. No eating, drinking, smoking or tobacco use at the place of work. Keep away from food, drink and animal feeding stuffs.

| Boiling point          | > 93 °C                | (23.1 °C)
10. Stability and Reactivity

**Conditions to avoid:**

**Substances to avoid:**
strong oxidizing agents, acids, alkalies

**Hazardous reactions:**
The product is chemically stable.

**Decomposition products:**
No hazardous decomposition products if stored and handled as prescribed/indicated. Prolonged thermal loading can result in products of degradation being given off.

**Thermal decomposition:**
Possible thermal decomposition products:
carbon monoxide, carbon dioxide, nitrogen dioxide, nitrogen oxide
Stable at ambient temperature. If product is heated above decomposition temperature toxic vapours may be released. To avoid thermal decomposition, do not overheat.

**Corrosion to metals:**
Corrosive effects to metal are not anticipated.

**Oxidizing properties:**
not fire-propagating

11. Toxicological information

**Acute toxicity**

**Oral:**
Type of value: LD50
Species: rat (female)
Value: > 5,000 mg/kg

**Inhalation:**
Type of value: LC50
Species: rat (male/female)
Value: > 2.06 mg/l
Exposure time: 4 h

**Dermal:**
Type of value: LD50
Species: rat (male/female)
Value: > 5,000 mg/kg

**Irritation / corrosion**

**Skin:**
Species: rabbit
Result: moderately irritating

**Eye:**
Species: rabbit
Result: moderately irritating

**Sensitization:**
Buehler test
Species: guinea pig
Result: Skin sensitizing effects were not observed in animal studies.

**Repeated dose toxicity**

*Information on: Piperonyl butoxide*
Assessment of repeated dose toxicity:
The substance may cause damage to the liver after repeated ingestion of high doses, as shown in animal studies. The substance may cause damage to the liver after repeated inhalation of high doses. Repeated dermal uptake of the substance did not cause substance-related effects.

*Information on: Distillates (petroleum), hydrotreated light*
Assessment of repeated dose toxicity:
Dermatitis: The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

**Genetic toxicity**

*Information on: pyrethrum*
No mutagenic effects reported.

*Information on: Piperonyl butoxide*
Mutagenicity tests revealed no genotoxic potential.

*Information on: Distillates (petroleum), hydrotreated light*
The substance was not mutagenic in bacteria. The substance was not genotoxic in mammalian cell culture. The substance was not mutagenic in mammalian cell culture. The substance was not genotoxic in a test with mammals. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

**Carcinogenicity**

*Information on: pyrethrum*
Not Likely to Be Carcinogenic to Humans.

*Information on: Piperonyl butoxide*
In long-term studies in rats and mice in which the substance was given by feed, a carcinogenic effect was not observed. The US EPA has classified this substance with the rating of ‘C’, possible human carcinogen.

**Reproductive toxicity**

*Information on: pyrethrum*
No reproductive toxic effects reported.

*Information on: Piperonyl butoxide*
No reproductive toxic effects reported.
The results of animal studies gave no indication of a fertility impairing effect.

**Development:**

*Information on: pyrethrum*
No indications of a developmental toxic / teratogenic effect were seen in animal studies.

*Information on: Piperonyl butoxide*
No indications of a developmental toxic / teratogenic effect were seen in animal studies.

*Information on: Distillates (petroleum), hydrotreated light*
12. Ecological Information

Fish

*Information on: pyrethrum*

**Acute:**

- *static*
  - *Lepomis macrochirus/LC50 (96 h): 0.014 mg/l*

*Information on: piperonyl butoxide*

**Acute:**

- *Lepomis macrochirus/LC50 (96 h): 5.37 mg/l*

Aquatic invertebrates

*Information on: pyrethrum*

**Acute:**

- *Daphnia magna/EC50 (48 h): 0.013 mg/l*

*Information on: Piperonyl butoxide*

**Acute:**

- *other Daphnia magna/EC50 (48 h): 0.51 mg/l*

Aquatic plants

*Information on: pyrethrum*

**Toxicity to aquatic plants:**

- *No data available concerning toxicity for algae.*

*Information on: piperonyl butoxide*

**Toxicity to aquatic plants:**

- *green algae/EC50: 14.9 mg/l*

13. Disposal considerations

**Waste disposal of substance:**

Pesticide wastes are regulated. If pesticide wastes cannot be disposed of according to label instructions, contact the State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container disposal:**

Rinse thoroughly at least three times (triple rinse) in accordance with EPA recommendations. Consult state or local disposal authorities for approved alternative procedures such as container recycling. Recommend crushing, puncturing or other means to prevent unauthorized use of used containers.

14. Transport Information

Reference Bill of Lading
15. Regulatory Information

Federal Regulations

Registration status:
- Chemical TSCA, US blocked / not listed
- Crop Protection TSCA, US released / exempt

OSHA hazard category: Chronic target organ effects reported; ACGIH TLV established; Combustible Liquid

EPCRA 311/312 (Hazard categories):
- Acute; Chronic; Fire

EPCRA 313:
- CAS Number
  - 51-03-6 Piperonylbutoxide

CERCLA RQ
- CAS Number
  - 8003-34-7 Pyrethrins

State regulations

State RTK
- CAS Number
  - MA, NJ, PA 8003-34-7 Pyrethrins
  - MA, NJ, PA 64742-47-8 Distillates (petroleum), hydrotreated light

16. Other Information

Refer to product label for EPA registration number.

Recommended use: insecticide

We support worldwide Responsible Care® initiatives. We value the health and safety of our employees, customers, suppliers and neighbors, and the protection of the environment. Our commitment to Responsible Care is integral to conducting our business and operating our facilities in a safe and environmentally responsible fashion, supporting our customers and suppliers in ensuring the safe and environmentally sound handling of our products, and minimizing the impact of our operations on society and the environment during production, storage, transport, use and disposal of our products.
